INTERREG Programs - Emilia Romagna Region - Italy

# How to implement the multilevel governance in the Mediterranean

- Find common solutions and share knowledge and tools in the strategic topics of the area;
- Dialogue with international networks to promote alliances and implement the EU strategies present in the area;
- Reach the territories to match resources and needs;
- Let the impact on the territories be more concrete and durable;
- Involve the key actors (Regions) in the programming phases;
- Panoramed project as a good test and example to go on.
